

Pelagic

Maritime Intelligence Engineered.

Global Brand Guidelines & Identity System for Oceanographic
Data, Autonomous Systems, and Offshore Precision Engineering.

Strategic Brand Territory

Pelagic operates at the convergence of heavy oceanographic engineering and advanced computational intelligence. The brand territory bridges technical rigor with ocean data ecosystem mastery.

Maritime Intelligence

Advanced predictive analytics, real-time vessel telemetry, oceanographic forecasting, and risk intelligence models.

Maritime Engineering

Subsea infrastructure, autonomous vessel design, offshore structural engineering, and marine sensor deployment.

Maritime Operations

Port operations optimization, autonomous navigation logistics, offshore fleet management, and vessel efficiency.

Maritime Technology

Edge IoT sensors, deep ocean telemetry platforms, AI decision-support systems, and marine robotics integration.

Market Positioning

Engineering clarity in the world's most complex oceanic environments.

Pelagic operates at the convergence of heavy oceanographic engineering and advanced computational intelligence. The brand territory bridges technical rigor with ocean data ecosystem mastery.

Primary Logo Architecture

The Engineered 'P' Monogram

The primary mark combines a stylized fluid dynamic wave profile with a rigid architectural curve, symbolizing the intersection of ocean currents and engineered control systems.

The Engineered 'P' Monogram

Maintain minimum clear space equal to 'X' (height of the letter 'P' in wordmark) around all sides. Minimum physical print height: 18mm. Minimum digital height: 45px.

"Maritime Intelligence, Engineered."

The tagline is set in tracked-out light serif sans typography in Copper (#B56D47), reinforcing precision and craftsmanship.

Color System

Deep Marine Charcoal

HEX:#172A2E

RGB:23, 42, 46

CMYK:82, 58, 56, 60

Used for dominant backgrounds, structural UI, and primary body text.

Deep Marine Charcoal

HEX:#B56A4A

RGB:181, 106, 74

CMYK:22, 65, 75, 12

Used for telemetry callouts, technical accents, focal vectors, and highlights.

Architectural Off-White

HEX:#F5F4F1

RGB:245, 244, 241

CMYK:2, 2, 4, 0

Primary slide, print, and editorial paper surface background.

Signal White

HEX:#FFFFFF

RGB:255, 255, 255

CMYK:0, 0, 0, 0

Used for high contrast technical cards, data containers, and isolated graphics.
